collection

If you do something halfheartedly, you do it without much interest.

If you absolutely have to do something, you definitely have to do it.

If something is durable, it lasts a long time.

If you identify something, you figure out what it is.

Something that will last will be able to be used for a long time.

If something is rare, it is not found or seen very often.

If something settled, it moved slowly until it came to rest.

If something is common, there is a lot of it or it happens often.

When you have a collection, you have a group of things that are kept together.

If you separated things, you sorted them into groups.
